Taxi drivers are always very friendly and polite! They always take you the fastest way to your destination and don't intentionally take the long way, so your fare is more, as other companies sometimes do. Usually use the app, which is awesome and easy to use, but when I call the mail, they are also always super friendly! Best taxi companies in town and also the best taxi company, by far, from any taxi company I have used in every city! What a fantastic ride! Very short waiting time! I would like to personally thank the driver who went the extra mile last night to bring me home safely! He was incredibly intelligent, patient and polite. Would definitely use this service again and would recommend. Pickup was fast after the car was places, driver was friendly, fast ride, would use again. The locals used the same taxi company for the elevator from the airport. How great service and honest. Super nice guy brought us girls at Canalta and left us at Roscco Friday night. Didn't get his taxi, but after sitting in the pub for a few minutes, the driver came in and said I had overpaid. 2 Twenties were glued together. He gave me one and turned and left. Makes me so to think that there are people who exist. So big thank you. Care Cabs Ltd. is a professional progressive taxi company operating in and around Medicine Hat, Alberta. Medicine Medicine According to the police, it was a very quiet Christmas. Staff Sgt. Jason Graham says nothing big happened and it was indeed incredibly quiet. Christmas was good for us. We weren't too busy, everyone was behaving, Graham said. We had nothing extraordinary and nothing great or significant to do with. The COVID restrictions meant that most people stayed at home instead of going out, so even drunk driving or vehicle collisions didn't stand in the way much. There were calls about mental health that the police responded to. Graham says this was not uncommon over Christmas. We have been dealing with such calls for quite some time. I wouldn't say Christmas was different, Graham said. He says that in recent months, those who have mental health problems and ask for help have grown exponentially.
